

Arbor Global Advisory provides management consulting, program support, research and analysis, and acquisition advisory services to federal, state, and municipal agencies. We help program offices and agency leaders plan and execute programs, assess requirements and capabilities, manage organizational change, and turn complex analysis into decision-ready recommendations, from strategy through execution.

CORE CAPABILITIES

- **Program Management & Support** — Program planning and execution, capability and requirements assessments, performance monitoring, risk and issue management, governance, executive reporting, and senior-leader decision support.
- **Strategy, Policy & Organizational Transformation** — Strategic planning, mission and organizational assessments, policy analysis, operating-model development, business-process improvement, and change implementation.
- **Research & Analysis** — Market research in support of acquisition planning, industrial-base and supplier analysis, benchmarking, stakeholder research, qualitative and quantitative analysis, and decision-ready briefings.
- **Acquisition & International Program Support** — Acquisition and contracting support, Foreign Military Sales and international program case development and execution, multinational program coordination, and export-control and foreign-disclosure support.
- **Operations & Technical Advisory** — Logistics and supply-chain assessments, operational improvement, resilience and critical-infrastructure analysis, emergency-preparedness planning, emerging-technology assessment, and energy and critical-minerals analysis.

CUSTOMERS & COVERAGE

- **Target customers** — Federal defense, homeland security, energy, NASA and civilian agencies; combatant commands and international program offices; and state and municipal agencies.
- **Mission areas** — National security, homeland security, international programs, energy, infrastructure, critical minerals, and resilient supply chains.
- **Geographic coverage** — CONUS and OCONUS; headquartered in Spring, Texas (Houston metro).

DIFFERENTIATORS

- **Strategy through execution** — Senior advisors who stay through implementation and deliver measurable outcomes.
- **Export-control & compliance expertise** — ITAR-registered broker and exporter (DDTC) with a documented compliance program.
- **Autonomous & maritime systems experience** — Direct experience with autonomous and maritime systems, including technical capabilities, integration, and operational deployment.
- **Regional and language depth** — Former Navy Foreign Area Officer, professionally fluent in Spanish and Portuguese, with resident experience in Japan, Brazil, Colombia, Argentina, and Spain.

KEY PERSONNEL EXPERIENCE — MARK BRUNO, FOUNDER & CEO

- **Emerging technology & partner engagement** — Advise on integration of maritime sensor, EO/IR, and autonomous systems, coordinating partner nations, industry, and U.S.G. stakeholders.
- **International acquisition & capability delivery** — Restarted a stalled Foreign Military Sales case across a federal program office, industry, and a partner-nation government, delivering two coastal radars and a 200% increase in maritime radar coverage.
- **\$150M program, logistics & financial management** — Optimized a \$150M international acquisition portfolio; led supply, logistics, contracting, and acquisition for an 82-person organization, earning back-to-back best-in-class awards and a 98.90% financial audit score.
- **Interagency & multinational coordination** — Directed an 18-nation planning team for the largest maritime exercise in the Western Hemisphere and shaped federal security policy, resulting in three bilateral initiatives on illicit trafficking and maritime domain awareness.
- **Risk analysis & decision support** — Mitigated \$5B in financial and political risk through country-risk assessments supporting federal decisions on government guarantees; identified a supply-chain bottleneck protecting \$1B in planned investment; built business cases securing a \$10M offtake agreement and \$12M in funding.
